PROFILE

Driven and curious Computer Science student at Africa University with a strong interest in cybersecurity and digital forensics. Passionate about protecting systems from emerging threats and understanding how vulnerabilities are exploited. Solid foundation in Python, C#, and networking fundamentals, with a Cisco Cybersecurity badge to back it up. Constantly learning, problem-solving, and seeking opportunities to grow in ethical hacking and defensive security.

CAREER OBJECTIVE

As a passionate and detail-oriented Computer Science student, I seek opportunities to gain hands-on experience in cybersecurity. My goal is to develop strong practical skills in ethical hacking, penetration testing, and digital forensics, contributing to safe and secure technology systems while advancing toward a professional career in cybersecurity.

WORK EXPRIENCE
